2 1st Year FREE Ethylene Gas Filter Program with all Models

Ethylene gas is colorless, odorless, and deadly to your product. The good news is that protection is easy. We lead the industry in providing ethylene filter programs at no cost with all new equipment sales. Protection is as easy as choosing SRC.

3 SRC "Surround-Air™" Refrigeration

- Low Velocity, high humidity coils provide the ultimate environment for your delicate arrangements
- Copeland indoor compressors featured
- Energy efficient outdoor systems available

"BEST" in Floral Refrigeration

SRC "Surround Air™" (U.S. Patent and Trademark office Reg No #2.377.379)

4 Superb Warranty Policy

Standard on all SRC equipment: 5 year compressor motor, one year parts one year parts and 90 days labor on all factory installs. We will go one step beyond and coordinate your warranty service if necessary. Many florists don't know who to turn to if problems develop, and we want to be there for you. Warranty bills will be coordinated, authorized and paid by SRC. Your time and resources will not be tied up waiting and hoping for reimbursement after the fact.

5 Deluxe Delivery Service Included

We understand that this may be your first experience with ordering large equipment outside of your local area. Our in house delivery and tracking coordinators will help guide you from start to finish. All of our Series II displays include standard inside delivery service via North American Van Lines (NAVL). NAVL trucks are equipped with air-ride suspensions, displays are blanket wrapped for protection, and all NAVL professional drivers are insured for liability and property damage while at your location.

6 "Hassle Free" Delivery Program

Not every delivery goes exactly as requested. When items are either missing or damaged you will not be asked to work with the delivery company to resolve the problem as most companies require. Simply make a notation on the freight bill and fax it to SRC. SRC will promptly handle, resolve and keep you informed.
