Walk-in Storage Coolers

The workhorse for your business!

A must at holiday times. Excellent throughout the year for bulk storage and items awaiting delivery. Evens out your workload throughout the week. In addition to locating the unit in your design area, walk-ins can be modified for outdoor use on cement slabs or wooden decks, heated/unheated garages and basements.

What's Included...

CABINET:

- Modular construction with easy cam lock panel fasteners
- 4" Thick insulation
- 8' Overall height
- Premium white metal finish in/out
- Ethylene Gas Filters
1st year program included

UL APPROVED DOOR PANEL:

- Insulated door measures: 35½" W x 78" H
- Magnetic gasket provides air tight seal
- Interior light fixture wired to exterior switch
- Digital thermometer
- Self closing, spring load hinges with door closure

FLORAL REFRIGERATION SYSTEM:

- Deluxe "Surround Air"™ Coil
Two-way air discharge, 90-95% humidity.

***"Surround Air" (U.S. Patent and Trademark office registration #2,377,379) – Extends freshness by gently bathing flowers with generous humidity and uniform air temperature*

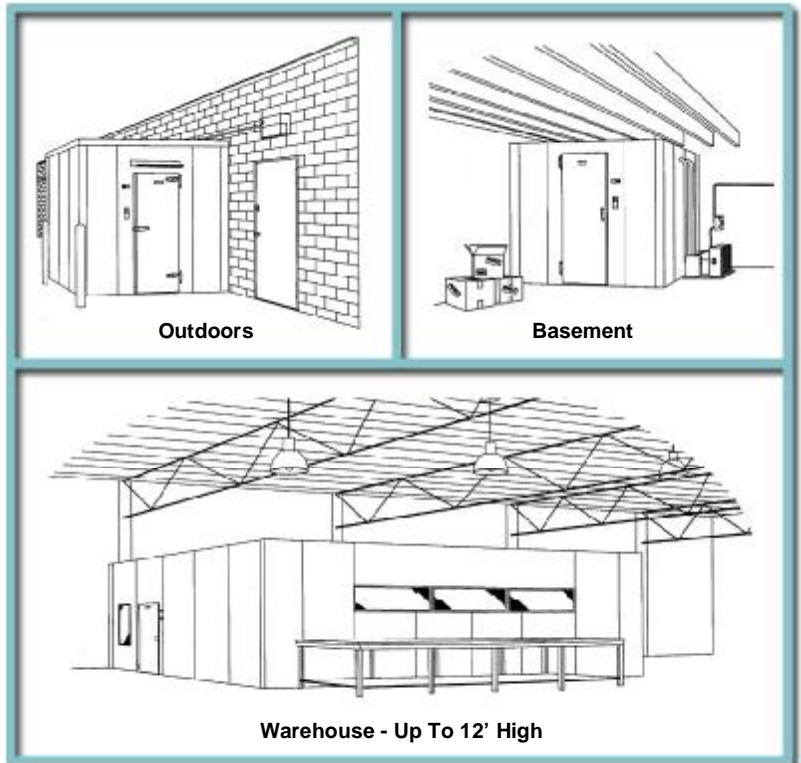

Each system includes:

Indoor condensing unit, coil and temperature operated control system.

Also Included:

- Detailed computer layout drawing
- Fabrication / Assembly print
- Electrical requirements / wiring diagram
- Assembly instructions for self installs

VARIETY OF APPLICATIONS

Warehouse - Up To 12' High
