Assembled and Ready-To-Use Compact Storage Cooler

This affordable product is a great alternative when extra storage is required and you don't have the space for a full size walk-in. Excellent for indoor and outdoor use. More capacity than a (3) door display cooler. Other popular locations to place unit is outdoors on cement slab, wooden deck, porches and in garages. Standard model is fully assembled, ready to use and plugs into 115v outlet.
