Extend Flower Life and Increase Profits...

SRC's specially formulated natural mineral compound filters, "EGF", offer effective control for your floral products from the harmful effects of ethylene gas.

What is Ethylene Gas?

A naturally occurring hormone produced by all plant tissue. Ethylene is an odorless gas that accelerates the aging process in flowers and plants and can be responsible for as much as 30% of losses due to shrinkage.

Factors Affecting Ethylene Production

Improper temperature and humidity levels accelerate the growth of ethylene. Other common sources come from leafy greens; aging flowers; flowers under stress due to insects and diseases; fungus, (e.g. Botrytis); pollution (e.g. smoking); and engine exhaust.

Signs of Ethylene Damage

Discoloration, wilting, spotting, loss of stamina and dropping of petals and leaves.

How it Works

"EGF" specially formulated natural mineral compound trap and neutralizes ethylene gases that accumulate in your cooler. Cut flowers that are not exposed to ethylene gas look fresher and last longer.

Easy to Use - Replace Every 120 Days

Remove packaging, write date on filter and place in position.

- For Mo#EGF-80 and EGF-130, place on floor of display cooler. Easily hides behind a cut flower bucket or arrangement. Place seam side out and pointing up/down.
- For Mo#EGF-350, EGF-875Q, EGF-1200Q, EGF-1750Q & EGF-3500Q, hang filter (quilt) in storage area of walk-in. For best results, hang high, e.g. onto upper shelf of shelving.

Large Variety of Filters Available for Every Display and Storage Cooler

FILTER DATA		
Model #	Capacity	Dimensions
EGF 80*	Up to 80 cu. ft.	6" x 8"
EGF 130*	Up to 130 cu. ft.	8" x 12"
EGF 350	Up to 350 cu. ft.	14" x 16"
EGF 875Q	Up to 875 cu. ft.	1' x 2'
EGF 1200Q	Up to 1200 cu. ft.	1' x 3'
EGF 1750Q	Up to 1750 cu. ft.	2' x 2'
EGF 3500Q	Up to 3500 cu. ft.	2' x 4'

Each filter is guaranteed to be effective up to 120 days under heavy cooler use. When replacing "EGF" Filter(s), throw away the old safe biodegradable filter.

* Model #EGF-80 and EGF-130
made for display coolers only.
